Re: Notice of File Closure for Small Mining Activities, MJK 1-4 Lode, S/053/029 and Harrisburg Bench, S/053/017, Washington County, Utah

Dear Mr. Caruso:

This letter is to notify you that file #S/053/029, for the MJK 1-4 Lode project, and file #S/053/017 for the Harrisburg Bench project, located in Washington County, Utah, will be retired from our files.

The BLM inspected the project areas and found the surface reclamation was satisfactorily reclaimed on both of these mine sites. The BLM subsequently closed out their files for these projects. In a phone conversation with a member of my staff on March 21st, you indicated you would be requesting release from these two sites. Your request will no longer be necessary. Because these projects are located on BLM managed lands, we will accept the BLM's recommendation and also close our files accordingly.

If you have any questions or concerns regarding this action, please notify us within 15 days from receipt of this letter. Thank you for your time and consideration in completing the required reclamation on these projects.

We still need your annual reports for the other two sites, the Caruso Mines, S/025/007, and the Sunrise 1 & 2, S/025/014. Please return these reports right away.

Sincerely,

D. Wayne Hedberg
Permit Supervisor
Minerals Regulatory Program
